### EXPERIENTIAL TRAINING TRACK: PATENT PROSECUTION

## WANT TO BE A PATENT WHISPERER?

Now's your chance. Come learn from some of the best in class – hands-on, one-on-one, tabletop – only at the RMIPI this May 31 and June 1, 2018, at the Westin Westminster Hotel!

Moderated by:  
**Wayne Stacy**, Partner, Baker Botts LLP

**Due to the building block nature of Track E, registrants for this track must attend all Track E breakout sessions, and not move around to breakout sessions in other Tracks.**

**REGISTRATION FOR TRACK E IS LIMITED. REGISTER EARLY TO RESERVE YOUR SPOT.**

This new track will provide participants the rare opportunity to sit down with experienced practitioners and learn in a practical, skills-based format. This is not about lectures. This is not about unidirectional communication – from lecturer to audience. This is about deeply interactive, practical, table-top learning. It's about experiential learning. Over two days, practitioners with hundreds of years of collective experience will sit with you in small group settings and teach you – how to conduct an inventor interview – how to interview and work with examiners – how to search - how to draft claims.

You will hear about the framework of law, but far more valuably you'll sit with two instructors and a small group of other participants and practice these skills, learning from some of the best in class. If you've ever wanted to sit with a mentor, ask questions, and learn – accelerate your skills development – this is that rare opportunity.

### THE RULES OF THE ROAD:

- **If you sign up for this track, please plan on attending all the sessions of this track.**
- **You are still welcome to join all Institute plenary sessions, lunches, breaks, and social events.**
- **Please know that this track is full participatory. It's hands-on learning at its best!**

Each **INVENTOR INTERVIEWS**, **EXAMINER INTERVIEWS**, and **CLAIMS CONSTRUCTION** training includes a brief lecture by a senior instructor, a demonstration by two instructors, and practical table-side learning in groups of 8, each led by an instructor. **SEARCHING** training includes demonstrations of effective, economical search techniques.

## ***Did you know ...***

**2018 marks the RMIPI's "Sweet Sixteenth" Anniversary.**

It started in 2002 in the CBA's offices. It had two tracks. Sixty-five people attended. In the decade and half that has since passed, the law turned and shifted many times. The RMIPI, which this year will have five tracks and well over 600 attendees, has as its singular mission excellence in IP and tech law programming – practical learning presented by national thought leaders set in an open, innovative and – we hope – enjoyable format. Every year. In Denver, Colorado.
